## Simple Communication Devices That Offer So Much More

Lingraphica AAC devices, or speech-generating devices, help improve communication, speech, and quality of life. By using a device, users can express what they want to say in several different ways.

- Practice speech and comprehension through activities, videos, and quizzes
- Personalize words, phrases, images, and videos to tell the story of you
- Connect with others and become more independent with a portable device that travels easily

### **Extensive Insurance Coverage**

Lingraphica devices are covered by Medicare, most state Medicaid, VAs, commercial insurance, and others.

# Connecting Others + Building Community

*People first. Technology second.*

**the  
aphasia  
community**

BY LINGRAPHICA

**[Aphasia.com](https://aphasia.com)**

Aphasia is one of the most common communication impairments, affecting an estimated 2 million people in the United States. The Aphasia Community connects those living with aphasia and their loved ones in one safe online community.

---

## VIRTUAL CONNECTIONS

**Aphasia Recovery Connection & Lingraphica**

### **Building Aphasia Connections, One Session at a Time**

Connect with hundreds of individuals with aphasia and their loved ones from anywhere in the world. Live online meetups facilitated by speech language pathologists and other aphasia experts are available 7 days a week for free.

## Free Speech Therapy and Apps

### **TalkPath Therapy**

Free online therapy solution. Choose any one of thousands of practice exercises and follow your progress.

### **TalkPath News**

Catch up on current events with curated news articles read aloud and highlighted. Users can take a multiple-choice comprehension quiz after each article.

### **SmallTalk Communication & Therapy Apps**

Communication and therapy options to focus on your specific needs — right on your mobile device.

For more than 30 years, Lingraphica has helped people with diverse communication needs improve the communication, speech, and quality of life.

## Fierce Advocates

Communication is a basic human right. It is our fundamental guiding principle.

## Thought Leaders

Our experience allows us the honor and responsibility to guide, influence, and inspire.

## Human Beings

From how we build products to how we engage with one another, we put people first.
